PROFESSIONAL SUMMARY

Enthusiastic and innovation-driven 3rd-year Computer Science & Engineering undergraduate with a strong foundation in Web Development, Artificial Intelligence, and Rapid Prototyping. Hands-on experience developing IoT hardware prototypes, building AI-assisted solutions, and competing in 3+ hackathons. Passionate about exploring cutting-edge technologies including Agentic AI, modern web frameworks, and Quantum Computing.

EDUCATION

- **Bachelor of Technology (B.Tech) in Computer Science and Engineering (3rd Year)** | Behara College of Engineering and Technology, Visakhapatnam | **Expected Graduation:** 2028
- **Intermediate** (MPC – Mathematics, Physics, Chemistry) | Narayana Junior College, Visakhapatnam
- **Secondary School Certificate (Class X)** | Z.P.H.S. Chandrampalem, Visakhapatnam

PERSONAL DETAILS

- **Date of Birth:** April 25, 2006
- **Languages Known:** English, Telugu

TECHNICAL SKILLS & EXPERTISE

- **Programming & Core Languages:** Python, C, HTML5, CSS3, JavaScript
- **Web Development:** Responsive Web Design, Front-End Basics, UI/UX Prototyping
- **Artificial Intelligence & Tools:** AI Application Prototyping, Prompt Engineering, Personal Assistant Development, AI Platform Integration
- **Emerging Technologies:** Quantum Computing Fundamentals (Algorithms & Quantum Concepts)
- **Hardware & IoT:** Prototyping, Sensor Integration (Drowsiness Detection, Accelerometers/Gyro sensors)
- **Version Control & Developer Tools:** Git, GitHub, VS Code

PROJECTS

- **IoT Smart Helmet with Drowsiness Detection:** Designed the architectural roadmap and built a working hardware prototype for a smart safety helmet. Integrated sensors to monitor rider fatigue and alert the user upon detecting drowsiness to prevent road accidents. Created system flowcharts, circuit blueprints, and mapped out emergency alert triggering logic.
- **Personal AI Virtual Assistant (Jarvis Concept):** Developed an interactive personal AI assistant prototype capable of processing voice/text commands and automating basic desktop workflows. Explored Natural Language Processing (NLP) workflows and integrated AI platform APIs to deliver intelligent automated responses. Currently researching and developing custom tool-calling agents and professional-grade AI utilities.

EXPERIENCE & WORKSHOPS

- **Ratan Tata Innovation Hub Workshop:** Participated in innovation workshops focused on emerging technology frontiers, ideation methodologies, and entrepreneurship. Explored introductory concepts of Quantum Computing, quantum gates, and potential applications in future computing paradigms.
- **Campus Recruitment Training (CRT) – Web Technologies:** Completed hands-on training covering full-lifecycle web designing and front-end development standards. Built responsive layouts and interactive web components using modern HTML, CSS, and JavaScript.

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- **Hackathons & Competitions:** Competed in 3 national/regional-level hackathons, collaborating under tight deadlines to ideate and prototype technological solutions.
- **Open Source & Version Control:** Active GitHub user managing project repositories, version history, and collaborative code.
